Building 3/Room 101 by 3:00
- 14 July First Selections announced
- 21 July Presentations will be given week of
July 21-25, 2003
- 11 AUGUST Final Selections will be announced

White Paper Format
(Five Pages as Specified)

I. Opportunity/Challenge/Roadblock

A clear, detailed exposition, which justifies interest in the problem

One should describe an opportunity which was never before recognized; a long-standing challenge which has not been addressed; or a serious roadblock which has been preventing progress. This discussion should capture the reader's interest in the topic.

II. Proposed Work

Describe specific task envisioned for FY05;FY06;FY07 in separate paragraphs

One should make clear what needs to be done and specifically what one will do. Do not propose to carryout a "study" of some phenomena. Likewise do not propose to "investigate" or "explore". These are immeasurable goals. Instead set out to "prove" or "demonstrate" or "show". This section should convince the reader that the research will yield an important result.

III. Participants

Name (including Code, phone, and email)/Task/PY Commitment/
Referenced Work (key relevant references of participants previous work)

One should show here the importance of each participant toward achieving the goals in Section II. They will be considered "key personnel" and their role should be supported by their referenced work.

IV. Equipment Requirements

Availability, location, new purchases

Self explanatory

V. Budget

New Starts should be budgeted (1M>Total>500K) for each of the FY.

(a) Personnel Costs (including Staff; Postdocs; New Hires)

NO CONTRACTORS

(b) Expenses (including Supplies; Travel; Equipment)

The budget should be very explicit to show coverage of each individual.
